DI Yogyakarta, Indonesia

Informatics graduate with a passion for web development and practical digital solutions. Experienced in developing web applications through academic, internship, and personal projects. Eager to learn, collaborate, and grow through new challenges.

Experiences

Dinas Komunikasi dan Informatika Kab. Kulon Progo - **Yogyakarta, Indonesia** Jan 2026 - Apr 2026

Internship - IT & System Governance

Dinas Komunikasi dan Informatika Kabupaten Kulon Progo is a government agency responsible for information technology, communication, digital services, and public information management in Kulon Progo.

- Developed and enhanced the AnjabPRO web application using Laravel, PHP, MySQL, and Tailwind CSS, implementing modules for job analysis, workload analysis, job requirements, job hierarchy, and organizational data management.
- Implemented key system features and integrations, including JWT-based APIs, Google reCAPTCHA V3, PDF export, XLSX import/export, job duplication, monitoring dashboards, and workflow validation.
- Performed testing, debugging, UI improvements, and workflow refinement based on user feedback, while collaborating with the development team using Git and GitHub through branching and pull requests.

Eagle Jeans Corporation - **Yogyakarta, Indonesia** Jun 2026 - Oct 2026

Freelance - Software Developer

Eagle Jeans is a fashion and apparel business specializing in denim products, supported by a digital system to manage its business operations, transactions, and customer-related processes.

- Developed and maintained a production Laravel web application for Eagle Jeans, implementing business features, CRUD modules, transaction workflows, and database operations to support daily business activities.
- Improved and customized the system based on client requirements, including feature development, bug fixing, data management, and usability improvements for real-world business processes.
- Handled application deployment and production maintenance, ensuring the system remained functional and reliable while supporting ongoing business operations.

Education

Universitas Atma Jaya Yogyakarta - **Yogyakarta, Indonesia** Aug 2022 - Jul 2026
